

# 3 Ways to Verify Successful Application Submittal

1. Ensure that after going through the usajobs.gov process that you are taken to the NASASTARS supplemental questions.

Welcome to NASA STARS  
The NASA Staffing and Recruitment System

You have taken the first step in applying for the following:  
JS13P0007  
NASA Pathways Recent Graduate, Accountant  
Houston, TX

To receive consideration, you must submit a resume and answer NASA-specific questions. The NASA questions appear after you submit your resume and are transferred to a NASA web site. If you successfully apply, USAJOBS will show your application status as 'resume received - complete.' If your status is 'Application Started,' you have not successfully applied. Do not rely on a USAJOBS email to confirm successful application only an email from NASA confirms a successful application.

In addition to sending us your USAJOBS resume, these additional steps are required in order to complete your application.

1. We will verify that your resume meets our maximum length requirements. If it is too long, we will ask you to return to USAJOBS, edit your resume, and re-apply.
2. You will be asked to complete a short series of screening questions to confirm your interest and eligibility for this position.
3. You will be asked to complete a short series of Supplemental Information questions.

You will not receive consideration for this position unless you complete the entire process by the closing date of the announcement. Once you have completed these steps, you will be returned to USAJOBS.

2. Check your "Application Status" to ensure that your resume was successfully submitted. You should see "Resume Received" in the status column
